 Dimensions (H x W x D, inches): 9.25 x 18 x 21
 Weight (pounds): 122
 Price: \$5,899

These listings are based on the manufacturer's stated specs; the HT Labs box below indicates the gear's performance on our test bench.

Ratings: Earthquake Ciné Nova Grande Seven-Channel Amplifier

Build Quality: 95

- Top-quality internal components all around
- Built like a tank

Value: 91

- Big power is never cheap—if it's good
- The modular design allows for easy channel isolation and replacement

Features: 94

- Big, clean wattage and current are the best amp features of all
- Balanced inputs

Performance: 93

- Massive power and dynamics
- Strong with two-channel or multichannel music or movies

Ergonomics: 90

- How ergonomic can a big amp be?
- Handles to carry the amp are an option—a good option

Overall Rating: 93

The Cinénova Grande brings a lot of power, a lot of current, and a lot of excitement to the table. Its musical performance is strong, and it can easily power a large-scale seven-channel theater system—not to mention anything smaller—without breaking much of a sweat. It sounds as big as it looks.
